

全國少年魔術大賽金獎 莊巧儀

4A莊巧儀 – 2013年第二屆金魔童少年魔術大賽金獎得主。已有三年多學習魔術經驗的莊巧儀，坦言起初加入魔術學會，是因為覺得魔術實在很神奇，而且能為觀眾帶來歡樂。

事實上，能贏得觀眾的掌聲和笑聲，全憑不斷訓練，不斷努力換回來的。由於過三年的學界魔術比賽都在八月份舉行，故此，由考試後至比賽前兩個月，她每天九時至六時，也會天天刻苦練習。由設計魔術的詭計至如何表達的方法，都要反復思索及練習，過程中，令她明白成功非僥倖，而且更要不斷從失敗中學習，了解自己的不足之處。不然，她怎能在過去三屆學界比賽都獲得三甲的獎項呢？

現在，她站在台上已經不再膽怯。期望未來可以衝出香港，參加更多國際賽事，擴闊視野。

A Year of My Life in Italy
by Leanna Chan (5E)

Every time I go to the airport, I cannot help thinking of my fabulous exchange experience in Italy. Last year I made a decision which completely changed my entire life. I participated in a one-year cultural exchange program organized by the AFS Intercultural Exchanges to Italy.

People often ask me whether I found it boring to stay overseas by myself. In fact, I do not regret spending 10 months in Italy as I have learnt a lot from it. I had a lot of exposure to not only European languages but also different cultures. I have broadened my horizons and seen

a host of things that I have never seen in Hong Kong before. I believe that my perspectives towards different aspects of life have changed as a result.

I am extremely thankful to my wonderful host family. They took care of me and taught me a lot. I could not believe they treated me like their real daughter. They loved me as much as their children.

I also made a lot of new friends from all over the world and surely learnt about different cultures. The year I spent in Italy, though short, was one that I will remember for a lifetime. If I had a time machine, I would return to Italy to enjoy my Italian lifestyle over and over again!

TES 青年旅遊大使 — 4A 李斯惠

繼去年本校贏得德國創遊樂冠軍後，在剛過去的暑假，本校種子隊伍在德國十四天自訂行程之旅中，李斯惠獲得「TES 青年旅遊大使」獎。

Two Delightful Weeks in Germany
by Odelette Lee (5A)

Time really flies! Though I have been back from Germany for nearly four months, my heart is still there! The study tour to Germany was like a short-lived, wonderful dream. During my delightful fourteen days in Germany, I visited four cities with my two amiable schoolmates and a caring teacher who acted as our trip adviser. We visited a lot of museums to investigate the science and technology in Germany. We also had many wonderful conversations with the local people who gave me insights into the German way of living.

One of the most unforgettable memories was making friends in hostels. They came from different countries such as Poland, Italy, and Korea. We communicated in English and had lots of cultural exchanges which broadened my horizons. Now I fully understand what

it takes for a person to develop a global vision.

After this joyful trip, my life has changed. I believe I can now weather the storm without any help from others. With the knowledge I have acquired from this trip, I am now more motivated to study my science subjects. I am also eager to share my experience with my mates and family. This is surely the most pleasant trip I have ever had!
